# Highlight the Adjectives

Read the following paragraphs and highlight as many adjectives as you can find.

## Nature Walk

Today, I went for a relaxing walk through the local park. I saw many interesting things on my walk. First, I saw three orange butterflies. They were hovering over a bush that had pretty, purple flowers. Then, I noticed a large family of speckled quail hiding under a leafy tree. The babies were very cute! I also spotted a glistening stream, dotted with shiny gray rocks. There were even tiny tadpoles in the stream! What perfect day for a walk!

## Art Class

Mrs. Gormin let us choose different projects in class this week. I chose to paint a peaceful landscape with a bright sun and lots of rolling, green hills. Nadia chose to sew a striped patchwork quilt using the new sewing machine. Robert made a collage by using sharp scissors to cut little bits of paper into triangular shapes. Then, he used a sticky glue to attach the triangles to a blue paper. Walt used water-color paints to create an underwater scene with a big, blue whale and colorful coral underneath. We love art.
