

# What does it mean to COMPARE?

When you compare, you find out what traits two things have that are the same.

Let's  
Compare:

A fox: lives in forests and deserts  
eats bugs  
has a tail

A bird: lives in forests and deserts  
eats bugs  
has a tail

These traits  
show how a  
fox and a bird  
are similar!

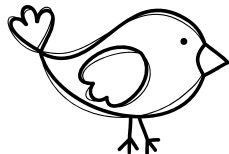

# What does it mean to CONTRAST?

When you contrast, you find out what traits two things have that are different.

Let's  
Contrast:

A fox: has fur  
digs a burrow  
doesn't hatch from an egg

A bird: has feathers  
builds a nest  
hatches from an egg

These traits  
show how a  
fox and a bird  
are different!
