

### **Inference Task Card #1**

You can hear the mailbox close and your dog begins to bark.  
What can you infer just happened?

### **Inference Task Card #2**

When you wake up and look outside, everything is wet.  
The sky is very cloudy.  
What can you infer happened while you were sleeping?

### **Inference Task Card #3**

A family stands around the dinner table while a young boy blows out the candles on a cake.  
What can you infer about the boy?

### **Inference Task Card #4**

Alexis gets home and wants to start her homework. She looks in all of her folders, but it's not there. She checks her mom's car, but it's nowhere to be found. What can you infer happened?

### **Inference Task Card #5**

Dad makes a new recipe that he found online. No one in the family has tried it before. In a matter of minutes, everyone has gotten up for seconds, and there isn't any food left over by the end of dinner. What can you infer?

### **Inference Task Card #6**

A woman's purse contains a bottle, a rattle, diapers, and wipes. What can you infer about the woman?

### **Inference Task Card #7**

After your teacher passes back last week's test, your friend puts her head on her desk and begins to cry. What can you infer?

### **Inference Task Card #8**

We bought funnel cake and corn dogs before standing in line for the Ferris wheel. What can you infer?

### **Inference Task Card #9**

You were late to school because you had a dentist appointment. When you get to the classroom, no one is there. You look at the clock and it's noon. Where can you infer everyone is?

### **Inference Task Card #10**

Sydney helps her mom pack their things into the car. Sydney is sure to include her glove, bat, and uniform, and hat. Her mom packs two folding chairs and water bottles. What can you infer?

### **Inference Task Card #11**

While hiking, Raymond spots animal tracks that look like they could belong to a dog. He sees lots of cactuses and hears a rattle snake rattling in the distance. What can you infer about Raymond's hike?

### **Inference Task Card #12**

Your brother comes home from surfing with his friends. His face is bright red and he keeps complaining about being itchy. What can you infer?

### **Inference Task Card #13**

Grandma made a turkey, your aunt made stuffing, and your mom made creamed corn. Everyone sits down at a big table for a meal as a family. What can you infer?

### **Inference Task Card #14**

After buying popcorn and a soda, Emily and her mom walk into a dark room and sit down in big, comfy chairs. What can you infer?

### **Inference Task Card #15**

Three friends run through the sprinklers and eat popsicles at 1:00pm on a Tuesday. What can you infer about the time of year?

### **Inference Task Card #16**

Benjamin walks into the classroom and sees his best friend, Connor, is dressed like a superhero. His teacher looks like a vampire, and the girl that sits in front of him is wearing a hat that is so pointy, Ben can hardly see the board. What can you infer?
